A.M.S. Tablet Attachments

Hand Strap

Comfortably hold your tablet with the hand strap attachment. The neoprene strap can be adjusted to a custom fit with Velcro straps.

Magnet

This heavy duty magnet attachment allows you to mount your tablet to any metal surface. The magnet supports up to 5 pounds.

Basic Tablet Stand

The basic tablet stand attachment allows you to easily angle your device for optimal viewing. The stand rotates 360° and can be positioned into portrait, landscape and typing positions.

Tablet Stand

Viewing media and achieving tasks on a tablet just got easier with the tablet stand attachment. Its dual-pivot points allow viewing from a variety of horizontal and vertical angles. The stand also acts as a carrying handle.

Shoulder Strap

Easily attach the shoulder strap to a compatible Kraken A.M.S. tablet case using the attachment loops. The strap is equipped with a removable shoulder pad, and conveniently holds up to two styluses or pens for easy access.

€ ELECTRASERIES[™] Power Up

Qi Technology

The Electra wireless charging solutions with Qi technology offers a range of products that allow you to charge your devices wirelessly. From lightweight protective cases, to a convenient charging cup holder, you'll be able to power up wherever you are.

Qi (pronounced "Chee") wireless charging, also known as inductive charging, is a method for transferring power wirelessly. Qi is fully compatible, meaning that any phone or other device carrying the Qi logo will work with any charging surface that carries the Qi logo.

PRODUCTS WITH Qi TECHNOLOGY

Wireless Charging Case

Our new wireless charging cases give your device the power of wireless charging! These cases are compatible with our full line of Qi products.

Single Wireless Charging Pad

The Single Wireless Charging Pad provides a safe and convenient way to charge your Qiequipped device.

Dual Wireless Charging Pad

The Dual Wireless Charging Pad allows you to charge your Qi-equipped device at 3 angles: flat, 20, and 45 degrees.

Portable Power 4000

The Wireless Charging Portable Power 4000 provides power for 18 hours of talk or usage time.

Original Electra

The Electra series gives you extra battery life with plenty of protection. It includes an extended battery that nearly doubles the life of a regular battery with minimal bulk.

Wireless Charging Cup Holder

The Wireless Charging Cup Holder allows you to drop in your device for convenient and wireless charging.

Electra Charging Cart

The Electra charging cart allows you to charge up to 30 tablets at once. Patent-pending UV light technology also disinfects cases while the devices are recharging.

The charging cart allows you set up time intervals to make charging and disinfecting devices easy. LED indicator lights for each device slot lets you know when a device is done charging. The charging cart is also easily transportable and features lockable storage. The cart is availbale in black, white and beige.

Apollo Snap Case

Apollo cases are light-duty cases, constructed from durable polycarbonate, providing protection from minor bumps, scratches and debris. Each Apollo case includes a self-applicable and scratch-resistant screen protector to help keep your phone screen safe.

Every Apollo case includes one complete case and an additional interchangeable back plate, providing two complete cases. This series offers interchangeable back plates in a variety of materials, including comfort gel, performance mesh and solid color or design polycarbonate. All plates for a device can be interchanged, offering several options to express your lifestyle!

- 2-in-1 snap on case
- Interlocking parts for a secure fit
- Self-applicable screen protector
- Raised edges along the front case provide additional screen protection
- Variety of design options with interchangeable back plates
- Green Protection: recyclable, degradable, compostable

Additional plate options available.

Apollo Folio Case

The Apollo Folio case makes it easy to give a device a professional look, while adding convenience and protection. The case features a two-piece matte polycarbonate rim paired with a custom polyurethane leather folio cover.

The folio interior includes microfiber lining and two card slots, for a sophisticated look and feature rich design. The folio cover can also be swapped out for the extra back plate included to create a standard Apollo case.

APOLLO FEATURES

- 2-in-1 snap on case
- Interlocking parts for a secure fit
- Self-applicable screen protector
- Credit card slots on the inside cover
- Slips in and out of pockets with ease
- Front cover folds for easy screen access
- Green Protection: recyclable, degradable, compostable

SERSEUSSERIES[™] Light-Weight Protection

Perseus Series cases are the most light-duty cases we offer, providing protection from minor bumps, scratches and debris. Perseus is constructed from shock-absorbing TPU to form a durable sleeve, with anti-skid texture. Each Perseus case includes a self-applicable screen protector to help keep your screen safe.

PERSEUS FEATURES

- Durable textured TPU cover
- Anti-skid construction
- Self-applicable screen protector*

BUSHER

♦ KRIOSSERIES[™] Light-Weight Protection

Krios cases offer our lightest protection, with the most style. Each case features a unique 3D design on the back, and comes in a variety of fresh colors. Krios cases allow you to protect your device without compromising style.

KRIOS FEATURES

- Unique 3D design
- Inner protective lining*

Since our inception in 2010, Trident Case has taken pride in bringing manufactured products back to the USA.

While we manufacture both in China and in the U.S., we continue to increase our US-based production capacity through the addition of new personnel and machinery so that we may soon reach our goal of producing the majority of all our products in the USA.

We believe that by building capacity to produce products in the US, we help create American jobs and stronger communities. Trident Case is proud to design and produce case solutions that are made in the USA.

The following products are Made in the USA from foreign and domestic components:

- Aegis Case for Apple iPad 2/3/4
- Aegis Case for Apple iPad Mini 1/2/3

At Trident Case, protecting the environment is just as important to us as protecting your device. That's why we're committed to using eco-friendly materials that reduce our carbon footprint and contribute to a greener earth.

We build our products by incorporating bio-enhanced resin into our plastic based products, which makes them degradable, compostable and recyclable. Rather than degrading in a landfill for over 500 to 1,000 years, Trident bio-enhanced cases degrade in approximately 25 years. Not only that, they're extremely strong. By shielding your device from impact, we extend its life and prevent it from being tossed in the trash. That means fewer devices end up in landfills each year.

To us, mitigating environmental impact is not only responsible but a necessity of modern manufacturing.
